## Subject Index

- Acetaldehyde dehydrogenase, subcellular localization, in human liver, 37
- A<sub>12</sub> acetylcholinesterase and polypeptide composition of electric organ basal lamina of *Electrophorus* and some Torpedinae fishes, 41
- Acetylcholinesterase, and brain neuronal RNA, scanning-integrating cytophotometric analyses of, in acute soman toxicated rats, 30
- Adrenal zona glomerulosa, of rat, origins of the differences in function of cells incubated as intact tissue and as collagenase-prepared cell suspensions, 17
- Aerobic glycolysis of bone and cartilage: the possible involvement of fatty acid oxidation, 168
- Albumin and serum protein binding, correlation to tumour localization of uroporphyrin isomers I and III, 156
- Alkaline phosphatase, activity, quantitative cytochemistry of, 81
- Alkaline phosphatase, clinical biochemistry of, 70
- Alkaline phosphatase, electron microscopic cytochemistry of, 77
- Alkaline phosphatase in haematology, 74
- Alkaline phosphatase, mammalian, biochemistry of, 66
- Articular cartilage, surface of: immunohistological studies, 143
- ATPase, spectrin dependant, heat inactivation of, and loss of smooth biconcave shape of red cells, is there any connection?, 145
- Basal lamina, of electric organ, of *Electrophorus* and some torpedinae fishes, the A<sub>12</sub> acetylcholinesterase and polypeptide composition of, 41
- Biochemistry of the polyamines, 131
- Bone and cartilage, aerobic glycolysis of: the possible involvement of fatty acid oxidation, 168
- Carbon tetrachloride hepatotoxicity, indices of the hepatoprotective activity of promethazine in: correlations between common tests for assessment of liver damage, 55
- Carboxylesterases, activation of, in root cortical parenchymal cells of *Pisum sativum* during xylem induction *in vitro*, 109
- Cartilage and bone, aerobic glycolysis of: the possible involvement of fatty acid oxidation, 168
- Cartilage, articular, surface of: immunohistological studies, 143
- Cells, single living, metabolic control and compartmentation in, 3
- Cellular utilization of cytosolic NADPH in kidney and liver cells from rats fed a normal or a vitamin D-deficient diet, 25
- Compartmentation, and metabolic control, in single living cells, 3
- Convertase and tyrosine amino transferase, behaviour of, during the first hours after hepatectomy in rats, 97
- Correlations between common tests for assessment of liver damage: indices of the hepatoprotective activity of promethazine in carbon tetrachloride hepatotoxicity, 55
- Cytochemical analyses, quantitative, of ovarian luteal and interstitial cell RNA in relation to plasma progesterins during pseudopregnancy in the rat, 173
- Cytochemistry, quantitative, of blood neutrophils in myelodysplastic syndromes and chronic granulocytic leukaemia, 92
- Cytophotometric analyses, scanning-integrating, of brain neuronal RNA and acetylcholinesterase in acute soman toxicated rats, 30
- DASPMI or rhodamine 6 GO, cells vitally stained with, fluorimetry of mitochondria in, 147
- Dispersed sensory ganglion cells cleave an active entity from nerve growth factor coupled to Sepharose, 84
- Diterpene forskolin, effects of, on the release reaction and protein phosphorylation of human platelets, 179
- Electric organ basal lamina of *Electrophorus* and some Torpedinae fishes, the A<sub>12</sub> acetylcholinesterase and polypeptide composition of, 41
- Electrophorus* and some Torpedinae fishes, A<sub>12</sub> acetylcholinesterase and polypeptide composition of electric organ basal lamina, 41
- Enzyme analysis and subcellular fractionation of human peripheral blood lymphocytes with special reference to the localization of putative plasma membrane enzymes, 117
- Fatty acid oxidation, the possible involvement of: aerobic glycolysis of bone and cartilage, 168
- Fibronectin is not a serum spreading factor for HeLa cells, 87
- Forskolin, diterpene, effects of, on the release reaction and protein phosphorylation of human platelets, 179
- Fluorimetry of mitochondria in cells vitally stained with DASPMI or rhodamine 6 GO, 147
- Ganglion cells, sensory, dispersed, cleave an active entity from nerve growth factor coupled to Sepharose, 84
- Glycolysis, aerobic, of bone and cartilage: the possible involvement of fatty acid oxidation, 168
- HeLa cells, fibronectin is not a serum spreading factor for, 87
- Hepatectomy in rats, first hours after, behaviour of tyrosine amino transferase and convertase, 97
- Hepatomas of different degrees of deviation, lipid peroxidation in, 49
- Hepatoprotective activity of promethazine in carbon tetrachloride hepatotoxicity, indices of: correlations between common tests for assessment of liver damage, 55
- Hepatotoxicity, carbon tetrachloride, indices of the hepatoprotective activity of promethazine in: correlations between common tests for assessment of liver damage, 55
- Immunohistological studies: surface of articular cartilage, 143
- Intestinal wall biotransformation *in vitro*, comparison of two cell isolation procedures to study, in control and 3-methylcholanthrene pretreated rats, 161
- Isolation, cell, comparison of two procedures to study *in vitro* intestinal wall biotransformation in control and 3-methylcholanthrene pretreated rats, 161

- Kidney and liver cells from rats fed a normal or a vitamin D-deficient diet, cellular utilization of cytosolic NADPH in, 25
- Leukaemia, chronic granulocytic, and myelodysplastic syndromes, quantitative cytochemistry of blood neutrophils in, 92
- Lipid peroxidation in hepatomas of different degrees of deviation, 49
- Liver, and kidney, cells from rats fed a normal or a vitamin D-deficient diet, cellular utilization of cytosolic NADPH in, 25
- Liver damage, correlations between common tests for assessment of: indices of the hepatoprotective activity of promethazine in carbon tetrachloride hepatotoxicity, 55
- Liver, human, subcellular localization of acetaldehyde dehydrogenase in, 37
- Lymphocytes, effects of mitogenic stimulation of, on lysosomal enzyme activity, 103
- Lymphocytes, human peripheral blood, enzyme analysis and subcellular fractionation of, with special reference to the localization of putative plasma membrane enzymes, 117
- Lysosomal enzyme activity, effects of mitogenic stimulation of lymphocytes on, 103
- Lysosomal membrane recovery following labilization by thyroid stimulators, 112
- Metabolic control and compartmentation in single living cells, 3
- Metals, non-physiological, role of transferrin in uptake into cells, 141
- 3-Methylcholanthrene pretreated and control rats, comparison of two cell isolation procedures to study *in vitro* intestinal wall biotransformation in, 161
- Mitochondria, fluorimetry of, in cells vitally stained with DASPMI or rhodamine 6 GO, 147
- Mitogenic stimulation of lymphocytes, effects of, on lysosomal enzyme activity, 103
- Myelodysplastic syndromes and chronic granulocytic leukaemia, quantitative cytochemistry of blood neutrophils in, 92
- NADPH, cytosolic, cellular utilization of, in kidney and liver cells from rats fed a normal or a vitamin D-deficient diet, 25
- Nerve growth factor coupled to Sepharose, dispersed sensory ganglion cells cleave an active entity from, 84
- Neutrophils, blood, quantitative cytochemistry of, in myelodysplastic syndromes and chronic granulocytic leukaemia, 92
- Parenchymal cells, root cortical, of *Pisum sativum*, activation of carboxylesterases in, during xylem induction *in vitro*, 109
- Pisum sativum*, activation of carboxylesterases in root cortical parenchymal cells of, during xylem induction *in vitro*, 109
- Plasma membrane enzymes, putative, enzyme analysis and subcellular fractionation of human peripheral blood lymphocytes with special reference to the localization of, 117
- Platelets, human, release reaction and protein phosphorylation of, effects of diterpene forskolin on, 179
- Polyamines, the biochemistry of, 131
- Progestins, plasma, during pseudopregnancy in the rat, quantitative cytochemical analyses of ovarian luteal and interstitial cell RNA in relation to, 173
- Promethazine, hepatoprotective activity of, in carbon tetrachloride hepatotoxicity: correlations between common tests for assessment of liver damage, 55
- Pseudopregnancy in the rat, quantitative cytochemical analyses of ovarian luteal and interstitial cell RNA in relation to plasma progestins during, 173
- Quantitative cytochemical analyses of ovarian luteal and interstitial cell RNA in relation to plasma progestins during pseudopregnancy in the rat, 173
- Quantitative cytochemistry, of blood neutrophils in myelodysplastic syndromes and chronic granulocytic leukaemia, 92
- Red cells, loss of smooth biconcave shape, and heat inactivation of spectrin-dependent ATPase, is there any connection?, 145
- Release reaction and protein phosphorylation of human platelets, effects of diterpene forskolin on, 179
- Rhodamine 6 GO or DASPMI, cells stained vitally with, fluorimetry of mitochondria in, 147
- RNA, brain neuronal, and acetylcholinesterase, scanning-integrating cytophotometric analyses of, in acute soman toxicated rats, 30
- RNA, ovarian luteal and interstitial cell, quantitative cytochemical analyses of, in relation to plasma progestins during pseudopregnancy in the rat, 173
- Role of transferrin in uptake of non-physiological metals into cells, 141
- Root cortical parenchymal cells of *Pisum sativum*, activation of carboxylesterases in, during xylem induction *in vitro*, 109
- Scanning-integrating cytophotometric analyses of brain neuronal RNA and acetylcholinesterase in acute soman toxicated rats, 30
- Sepharose, nerve growth factor coupled to, dispersed sensory ganglion cells cleave an active entity from, 84
- Serum protein and albumin binding, correlation to tumour localization of uroporphyrin isomers I and III, 156
- Serum spreading factor, fibronectin is not a serum spreading factor for HeLa cells, 87
- Spectrin-dependent ATPase, heat inactivation of, and loss of smooth biconcave shape of red cells, is there any connection?, 145
- Subcellular localization of acetaldehyde dehydrogenase in human liver, 37
- Surface of articular cartilage: immunohistological studies, 143
- Thyroid stimulators, lysosomal membrane recovery following labilization by, 112
- Torpedinae fishes, and *Electrophorus*, the A<sub>12</sub> acetylcholinesterase and polypeptide composition of electric organ basal lamina of, 41
- Transferrin, role of, in uptake of non-physiological metals into cells, 141
- Tumour localization of uroporphyrin isomers I and III and their correlation to albumin and serum protein binding, 156
- Tyrosine amino transferase and convertase, behaviour of, during the first hours after hepatectomy in rats, 97
- Uroporphyrin isomers I and III, tumour localization of, and their correlation to albumin and serum protein binding, 156
- Vitamin D-deficient, or normal, diet, cellular utilization of cytosolic NADPH in kidney and liver cells from rats fed, 25
- Xylem induction *in vitro*, of *Pisum sativum*, activation of carboxylesterases in root cortical parenchymal cells during, 109
